

# ENVR 622. SUSTAINABLE LANDSCAPES.

---

Credits: 3

Offered by: Bieler School of Environment (Graduate Studies)

This course is not offered this catalogue year.

## Description

Tools and knowledge needed to evaluate landscapes for sustainable management. Processes that shape landscapes, consequences of alternate landscape patterns on ecological flows, implications of management choices on biodiversity and sustainability, and need for social innovations.

- Restriction: Students registered in Environment Option, or permission of instructor.
- Note: An understanding of ecological principles is required to take this course. Comparative case studies will be used.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
