

# EPIB 625. ETHICS OF HUMAN RESEARCH.

---

Credits: 3

Offered by: Epidemiology and Biostatistics (Graduate Studies)

Terms offered: Winter 2026

[View offerings for Winter 2026 in Visual Schedule Builder.](#)

## Description

Introduction to the ethics of conducting research involving human beings, with focus on clinical trials and surveys of ethical issues in public health research, experimental psychology, and animal experimentation. Areas covered include: scandals involving research with humans; ethical and regulatory guidelines and structures; ethical theory and principles of human research ethics; empirical findings on ethical practice in research.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
