

# EPIB 686. ENVIRONMENTAL HEALTH SEMINAR.

---

Credits: 3

Offered by: Epidemiology and Biostatistics (Graduate Studies)

This course is not offered this catalogue year.

## Description

The seminar will promote critical thinking among students regarding current topics in environmental and occupational health. The course will comprise critical review of papers and topics from the literature, discussion of key studies in environmental health, student presentations, presentations by outside speakers, presentation of novel methods by students and faculty, and other topics.

- Prerequisites: MATH 556, MATH 557, or permission of instructor
- Available to all graduate students in EBOH, and with approval of instructors to students in other departments in which health or epidemiology is taught. Students in EBOH will be given priority.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
