Offered by: Earth & Planetary Sciences (Faculty of Science)

Terms offered: Summer 2026

View offerings for Summer 2026 (https://vsb.mcgill.ca/vsb/criteria.jsp?term=202605&courses=ESYS-480N1) in Visual Schedule Builder.

Description

Research project supervised by one or more staff members, with the results to be presented in the form of an undergraduate thesis.

- Restrictions:Registration in the Earth System Science Honours program.
- Permission of instructor is required to take this course. A written proposal outlining the studies to be undertaken must be submitted to the undergraduate ESS Student Adviser by September 30 of the U3 year. The proposal will be reviewed by the Adviser. If approved the investigation will be supervised by one or more staff members, and the results will be presented in the form of an undergraduate thesis. The final written report will be worth at least 50% of the final grade. The grading scheme will be agreed upon between the supervisor(s) and student before approval of the ESS Student Adviser.
- Students must also register for ESYS 480N2.
- No credit will be given for this course unless both ESYS 480N1 and ESYS 480N2 are successfully completed in a twelve month period.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
