

ESYS 500. COLLABORATIVE RESEARCH PROJECT.

Credits: 3

Offered by: Earth & Planetary Sciences (Faculty of Science)

Terms offered: Fall 2025

[View offerings for Fall 2025 in Visual Schedule Builder.](#)

Description

The main steps in developing an Earth System Science research project: identifying knowledge gaps using scientific literature, designing a research strategy (observational, analytical or computational), conducting the research, analyzing and synthesizing results, and communicating results as a formal scientific report.

- Fall
- 3 hours seminar
- Prerequisites: ESYS 301 or permission of the instructor.
- 1 hour of lecture plus 2 hours of project per week.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
