Credits: 3

Offered by: Surgery (Graduate Studies)

Terms offered: Fall 2026

View offerings for Fall 2026 (https://vsb.mcgill.ca/vsb/criteria.jsp?term=202609&courses=EXSU-619) in Visual Schedule Builder.

Description

The process of surgical innovation and hands-on skills necessary to work within a multi-disciplinary team in the creation of a novel, need driven, and marketable prototype used in the care of the surgical patient. This is second of a 3 part course introducing concepts and performing needs analyses focusing on the hospital environment and the close contact with its structure and patients.

- Corequisite: EXSU 620
- Prerequisite: Permission of instructor.
- Restriction: Course requires entry to surgical theatre; this is subject to hospital approval.
- 1) Students may be subject to interview.
- 2) Language of instruction: English, French available.
- 3) Minimum number 6, maximum 30
- 4) Subject to completion of medical/immunization record.
- 5) Professional conduct and dress required at all times in hospital visits when in potential contact with patients.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
