

FACC 463D1. ENGINEERING DESIGN PROJECT.

Credits: 3

Offered by: Engineering - Dean's Office (Faculty of Engineering)

This course is not offered this catalogue year.

Description

Teams work in consultation with faculty members and/o industrial consultants, and under the supervision of the course instructor, in the design of functional and practical systems, devices, or processes, taking into account safety, sustainability, management and economic considerations. Emphasis is on the completion of a project of professional quality in which professional engineering practices are followed.

- Prerequisites: WCOM 206; permission of the instructor.
- Restrictions Open only to U3 students.
- 1. (0-0-9)
- 2. Students must register for both FACC 463D1 and FACC 463D2.
- 3. No credit will be given for this course unless both FACC 463D1 and FACC 463D2 are successfully completed in consecutive terms

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
