Description

Overview of participatory research with community, clinical, and organisational stakeholders. Content focuses on participatory engagement and data collection methods, while students have an opportunity to work through aspects of their participatory project with the help of group discussions, small group work, roleplay, and guest presentations from actual participatory projects.

- Prerequisite(s): Permission of instructor if graduate student is outside the department
- Restriction(s): Open to graduate students in the Department of Family Medicine.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
