

# FMED 608. ADVANCED MIXED METHODS SEMINAR IN HEALTH RESEARCH.

---

Credits: 1

Offered by: Family Medicine (Graduate Studies)

This course is not offered this catalogue year.

## Description

Advanced epistemological and methodological approaches for graduate students in order to improve their understanding of the approaches and to apply them in their research projects. Students also develop the ability to read and critique peers' mixed methods research projects.

- Restriction(s): Permission of instructor. Priority given to students registered in: (1) the MSc in Family Medicine and PhD in Family Medicine and Primary Care; and then (2) any other graduate program offered by the Faculties of Medicine and of Dentistry.
- Language of instruction: English. Pierre Pluye is instructor.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
