Description

The focus of Enterprise Management 2 will be at the strategic level. Students will build on existing knowledge to examine the steps necessary to prepare a management and business plan for their agricultural enterprise. They will be introduced to the development process of a farming business. The links between technical, financial, and economical aspect will be made. Students will be exposed to external factors of a farming business through the use of a three-day field trip and guest speakers from the agricultural establishment.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
