Description

Students will acquire the skills necessary to plan the future development of their farm yard and agricultural buildings. They will study techniques for analyzing the suitability of the current buildings, the current and future needs of the enterprise and the relevant environmental legislation and zoning laws. Students will learn to use building and site plans, as well as acquire a basic knowledge of engineering design.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
