Description

The objective is to understand human resource management techniques in agriculture. This includes being able to plan the manpower needs of the agricultural enterprise, by the month and by the year. Describe the principal tasks and work conditions, explain the steps in seeking farm and agricultural employees and prepare the payroll for employees. It also includes define the communication mechanisms between the owners, and with the employees as well as farm transfer from a financial, human and organizational standpoint.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
