Terms offered: Fall 2025

[View offerings for Fall 2025 in Visual Schedule Builder.](#)

Description

Planning, planting, growth, harvest and storage of various field-grown vegetables and fruits. Vegetables (cultivar selection, production methods, crop rotation, physiology, pests and diseases, etc.): tomatoes, peppers, pumpkins, cabbage, broccoli, lettuce, onions, carrots, sweet corn, potatoes and other vegetables and herbs. Fruits (site selection, cultivar selection, production methods, physiology, pests and diseases, etc.): apples, strawberries, raspberries, blueberries, grapes and other fruits. Both organic and conventional farming methods are emphasized.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
