

FMTP 018. BUILDING MAINTENANCE (152-018-MC).

Credits: 1.33

Offered by: Farm Mgmt & Technology Program (Faculty of Agric
Environ Sci)

This course is not offered this catalogue year.

Description

Students will learn how to maintain agricultural structures. They will learn how to develop a regular maintenance program for residential and production buildings. They will learn skills needed to perform basic repair maintenance of buildings such as carpentry, plumbing, electrical, and the use of power tools. The students will learn how to keep good maintenance records and also learn about the properties of materials related to agricultural structure maintenance.

- (152-018-MC)
- (1-2-1)

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
