

FMTP 019. TOOLS AND MACHINERY MAINTENANCE (152-019-MC).

Credits: 1.67

Offered by: Farm Mgmt & Technology Program (Faculty of Agric
Environ Sci)

This course is not offered this catalogue year.

Description

Students will learn how to maintain hand tools and agricultural machinery. They will learn to develop a regular maintenance program, design and equip a maintenance workshop, as well as plan for machinery storage. They will learn basic repair and maintenance skills such as: electric and gas welding, cold and hot metal working, and performing cleaning and lubrication of machine components. The students will also learn about properties of materials which are used in agricultural applications.
