

FMTP 020. AGRO-ENVIRONMENTAL FERTILIZATION PLAN 2 (152-020-MC).

Credits: 1.33

Offered by: Farm Mgmt & Technology Program (Faculty of Agric Environ Sci)

This course is not offered this catalogue year.

Description

In this second part of the Agro-Environmental Fertilization Plan course students will develop their own AEFP from the information they gathered on their farm during the previous summer. They will be introduced to the use of a software program designed for the AEFP. Students will develop a five-year plan based on the production objectives of the farm taking into account its initial status and the resources that are available. A five-year total nutrient budget for the enterprise will also be presented along with the nutrient management strategies selected to reduce the environmental impact of the agricultural activities of the farm.
