

GEOG 203. ENVIRONMENTAL SYSTEMS.

Credits: 3

Offered by: Geography (Faculty of Science)

Terms offered: Fall 2025

[View offerings for Fall 2025 in Visual Schedule Builder.](#)

Description

An introduction to system-level interactions among climate, hydrology, soils and vegetation at the scale of drainage basins, including the study of the global geographical variability in these land-surface systems. The knowledge acquired is used to study the impact on the environment of various human activities such as deforestation and urbanisation.

- Fall
- 3 hours
- Restriction: Because of quantitative science content of course, not recommended for B.A. and B.Ed. students in their U0 year.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
