

# GEOG 315. URBAN TRANSPORTATION GEOGRAPHY.

---

Credits: 3

Offered by: Geography (Faculty of Science)

This course is not offered this catalogue year.

## Description

Discusses the history and development of urban transportation systems, as well as problems and potential solutions from a geographic perspective. Specific topics include analysis of the social, economic, and environmental impacts; interaction of land use and transportation systems; the analysis of urban travel behaviour; and the implications of various policy alternatives.

- Winter
- 3 hours
- Prerequisite: GEOG 217 or permission of instructor

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
