

GEOG 370. PROTECTED AREAS.

Credits: 3

Offered by: Geography (Faculty of Science)

This course is not offered this catalogue year.

Description

Discussion of the goals of protected areas, focusing on the potential conflict between biodiversity conservation and use for recreation, education and sustainable extraction of resources. Principles and current issues in protected area design and management are reviewed. Examples are taken from developed and developing countries.

- Fall
- 3 hours
- Prerequisite: BIOL 308 or GEOG 203 or AEBI 205

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
