

# GEOG 382. PRINCIPLES EARTH CITIZENSHIP.

---

Credits: 3

Offered by: Geography (Faculty of Science)

This course is not offered this catalogue year.

## Description

Foundations and applications of earth citizenship. Foundations: sustainability, tragedy of the commons, dominion, privatization and public welfare, resilience, precautionary principle, and land ethic are critically considered. Applications: implications for relationship between human and natural economies; human population size and control; and morality of modern agricultural and forestry practices.

- Winter
- Restrictions: Not open to students who have taken or are taking NRSC 374. Restricted to U2 or U3 students. Enrolment limited to 50.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
