

HGEN 679. CANCER GENETICS: PRECISION ONCOLOGY.

Credits: 3

Offered by: Human Genetics (Graduate Studies)

Terms offered: Fall 2025

[View offerings for Fall 2025 in Visual Schedule Builder.](#)

Description

The past, present, and future of cancer research and treatment with an emphasis on precision medicine driven by significant advances in genomics. Precision medicine uses genomics, RNA and protein abundance, as well as key metabolic and physiological markers to best design and implement treatment.

- Prerequisite: Approval of the course instructor.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
