Description

The transition from pre-clinical to clinical education can be challenging for students as they adjust to their new roles and responsibilities. The course is based on the teaching and learning of a number of inter-related concepts (e.g. resilience, self-care, and compassion fatigue) that are relevant to the continued development of an identity as a professional and healer.

- Restriction(s): Open only to students enrolled in the M.D., C.M. program.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
