

INDS 408. EMERGENCY MEDICINE CLERKSHIP.

Credits: 4

Offered by: Medicine and Health Sciences (Faculty of Medicine & Hlth Sci)

This course is not offered this catalogue year.

Description

During this Senior Clerkship course, students are expected to apply and build on skills that they have learned during Core Clerkship courses. In the Emergency Medicine Clerkship, students have the opportunity to evaluate a large variety of undifferentiated patients presenting with a wide spectrum of complaints. They function as fully integrated members of the healthcare team, responsible for direct patient care with direct supervision by attending physicians and/or senior emergency medicine residents. Students are also encouraged to take part in all academic activities of the department, such as morbidity and mortality rounds and journal clubs.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
