

INDS 423. CLERKSHIP INTEGRATED ASSESSMENT 1.

Credits: 0

Offered by: Medicine and Health Sciences (Faculty of Medicine & Hlth Sci)

This course is not offered this catalogue year.

Description

This course includes integrated assessments that will occur longitudinally throughout the rotations in core clerkship and at the end of each of the 3 core clerkship blocks. During each rotation student's performance in the clinical setting will be assessed using a work-based assessment tool that will focus on all of the competencies in a stage-appropriate way. At the end of each block, students will sit a written test, i.e. the progress test. A progress test is a test that is representative of all the knowledge domain of a curriculum and is sat by classes at different stages of the curriculum. Each test will have the same blueprint which will represent a broad sample of the knowledge base of the curriculum as a whole. The tests will aim to assess knowledge application rather than solely recall.

- Open only to students enrolled in the M.D., C.M. program.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
