Credits: 1

Offered by: Medicine and Health Sciences (Faculty of Medicine & Hlth Sci)

Terms offered: Winter 2026

[View offerings for Winter 2026 in Visual Schedule Builder.](#)

Description

The Public Health and Preventive Medicine (PHPM) Clerkship Course in 4th year of clerkship is an innovative opportunity for students to learn from physician role models who are dedicated to improving the health of vulnerable and marginalized patients and populations. During the 1-week PHPM Clerkship Course, students will reflect on how the principles of public health and preventive medicine were manifest in their preceding clinical elective. Reflection will be supplemented by formal teaching sessions, selfdirected readings and collaborating with peers.

- Open only to students enrolled in the M.D., C.M. program.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
