

LING 650. TESTING THEORIES IN THE LABORATORY.

Credits: 3

Offered by: Linguistics (Graduate Studies)

This course is not offered this catalogue year.

Description

A course combining linguistic theory and appropriate experimental methods. Students will work on theoretical problems and develop techniques to test them experimentally. They will learn how to design and run experiments, and to evaluate experimental results and present them in a theoretical context.

- Prerequisite: Permission of instructor

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
