

# MDPH 396. UNDERGRADUATE RESEARCH PROJECT.

---

Credits: 3

Offered by: Medical Physics Unit (Faculty of Science)

This course is not offered this catalogue year.

## Description

This course cannot be taken under the S/U option. Students cannot be supervised by the same instructor for two 396 Science courses. Open to students in programs offered by the Faculty of Science. Since this course takes place within a clinical department and may require access to confidential data, the proposed research project needs departmental approval and may need research ethics board approval.

- Prerequisite: Completion of at least one undergraduate term with CGPA of 3.0
- Restrictions: This course cannot be taken under the S/U option. Students cannot be supervised by the same instructor for two 396 Science courses. Open to students in programs offered by the Faculty of Science. Since this course takes place within a clinical department and may require access to confidential data, the proposed research project needs departmental approval and may need research ethics board approval.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
