## Description

Basics of investments, including stocks, bonds and portfolio analysis, and the management of a company's financial resources. How discounting and capital budgeting techniques help managers decide which projects should receive funding. The focus will be on Net Present Value analysis and its limitations. How financial indicators are not always sufficient and do not incorporate considerations such as sustainability and the need to act ethically.

- Restriction: Open only to M.B.A. students.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
