

# MGSC 618. DATA ANALYTICS FOUNDATIONS IN SUPPLY CHAIN MANAGEMENT.

---

Credits: 3

Offered by: Management (Graduate Studies)

This course is not offered this catalogue year.

## Description

Data processing and analysis skills; basics of Python; data processing, visualization and simple programming. Study of regression and simulation techniques to address management problems that arise in real-world business settings.

- Restriction: Only open to students in the Master of Management in Manufacturing Management; Non-Thesis program.
- \*\*Due to the intensive nature of this course, the standard add/drop and withdrawal deadlines do not apply. Add/drop is the second lecture day and withdrawal is the fourth lecture day.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
