

# MGSC 652. STATISTICAL FOUNDATIONS OF DATA ANALYTICS

---

Credits: 3

Offered by: Management (Graduate Studies)

This course is not offered this catalogue year.

## Description

Statistical foundations for data analytics. Introduction to advanced statistical techniques and methodologies including sampling, regression, classification methods, and machine learning. Methods including retail settings, real cases and datasets across several business areas, and from the internet - including Yelp, Spotify, and Google trends.

- Restrictions: Not open to students who have taken MGSC 692 when topic was "Statistical Foundations of Data Analytics".

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
