

MGSC 662. DECISION ANALYTICS.

Credits: 3

Offered by: Management (Graduate Studies)

Terms offered: Summer 2025, Fall 2025

View offerings for Summer 2025 or Fall 2025 in Visual Schedule Builder.

Description

This course teaches quantitative methods used in business decision making. Topics include: optimization models, optimization under uncertainty, and simulation. Business applications of these techniques are emphasized. Students in this course will acquire expertise in quantitative methods for decision making, through computer analysis of real-life problems.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
