

MIMM 385. LABORATORY IN IMMUNOLOGY.

Credits: 3

Offered by: Microbiology & Immunology (Faculty of Science)

This course is not offered this catalogue year.

Description

This laboratory course allows students to gain expertise in following protocols and performing key techniques in immunology. Students also develop basic experimental design and scientific thinking skills by designing their own experiments based on available reagents to solve a problem. Students learn to keep a lab book and communicate scientific findings in written and oral form.

- Prerequisite(s): MIMM 211, MIMM 212, MIMM 214 (MIMM 384 highly recommended).
- Corequisite(s): MIMM 314
- Not open to students who are taking or have taken MIMM 386D1/D2.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
