

MIMM 510. NEW ADVANCES IN ANTIMICROBIAL DRUGS

Credits: 3

Offered by: Microbiology & Immunology (Faculty of Science)

This course is not offered this catalogue year.

Description

Overview on bacteria, insights into bacterial pathogenesis, an understanding of antibiotics, and new developments in antibacterial to beat antibiotic resistance.

- Open to U3 students and above. Class capacity is first come first serve, after the first 15 students, the next 10 students priority will be given to MIMM and PHAR students. Not open to students who have taken or are taking PHAR 510.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
