

# NEUR 570. HUMAN BRAIN IMAGING.

---

Credits: 3

Offered by: Neurology and Neurosurgery (Faculty of Medicine & Hlth Sci)

This course is not offered this catalogue year.

## Description

Current methods that are used to investigate human brain structure and function will be discussed with an emphasis on Magnetic Resonance-based techniques including functional Magnetic Resonance Imaging, Magnetic Resonance Spectroscopy, and Diffusion Tensor Imaging.

- Prerequisite: Permission of the instructor.
- Restriction: Students must be enrolled in the Integrated Program in Neuroscience (IPN) graduate program at McGill University. McGill students enrolled in other graduate programs as well as undergraduate students and students from other universities are encouraged to apply and should contact the course instructors.
- Contact hours: by appointment - please contact any of the responsible instructors by email

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
