

NEUR 605. NEUROSCIENCE SEMINAR 4.

Credits: 3

Offered by: Neurology and Neurosurgery (Graduate Studies)

This course is not offered this catalogue year.

Description

This course focuses on neuronal development and maturation from a molecular aspect. We introduce various model organisms and systems that are used to study molecular aspects of development, explore their particular advantages and explore the cellular and molecular events that contribute to the development of the nervous system.

- Winter
- Offered alternate years - odd numbered years

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
