

NSCI 396. UNDERGRADUATE RESEARCH PROJECT.

Credits: 3

Offered by: Biology (Faculty of Science)

Terms offered: Fall 2025, Winter 2026

View offerings for Fall 2025 or Winter 2026 in Visual Schedule Builder.

Description

Independent research project with a final written report.

- Prerequisites: At least one term of undergraduate studies, a CGPA of at least 3.0, or permission of instructor to waive these requirements. A project proposal form must be completed by the student and instructor and approved by the unit head or his/her delegate before the start of the term. Instructors will list project-specific prerequisites with the project description.
- Restrictions: This course cannot be taken under the S/U option. Coordinator's permission required. Students cannot be supervised by the same instructor for two 396 Science courses. Open to students in programs offered by the Faculty of Science only.
- Note: To receive approval to register for this course, a student must present a research proposal to the Coordinator. See <https://www.mcgill.ca/neuroscience/research/nsci-396-research-project-form/> for instructions.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
