[View offerings for Winter 2026 in Visual Schedule Builder.](#)

Description

This course will build on knowledge from NUR1 300. It will apply and expand upon knowledge on drug mechanisms of action, pharmacodynamics, pharmacokinetics, patient safety and professional nursing responsibilities in drug administration. Pharmacotherapeutic challenges related to cardiovascular, reproductive, digestive, renal, neurological, hematological, musculoskeletal systems, as well as, toxicology, addiction will be addressed. Health promotion as it relates to pharmacologic agents, drug safety, and evidence-based nursing implications for teaching, medication administration and monitoring will be explored.

- Corequisite(s): NUR1 324
- Prerequisite(s): NUR1 300

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
