

NUR2 210. HUMAN PHYSIOLOGY FOR HEALTH CARE 2

Credits: 3

Offered by: Ingram School of Nursing (Ingram School of Nursing)

This course is not offered this catalogue year.

Description

The study of human physiology including healthy functioning of different organ systems such as cardiovascular, renal, and reproductive. Exploration of some updates and advanced topics in the field of human physiology such as chronobiology, sport physiology and the physiological mechanism of aging. Emphasis will be on linking understanding of these concepts to maintain, promote and enhance overall health and well-being.

- Prerequisites: NUR2 209 (or equivalent)
- Restrictions: Open to students in U3 of an undergraduate degree, students who have completed an undergraduate degree or to students who have special permission of the instructor.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
