---

Credits: 4

Offered by: Ingram School of Nursing (Ingram School of Nursing)

Terms offered: Fall 2025

[View offerings for Fall 2025 in Visual Schedule Builder.](#)

## Description

Clinical field experiences provide opportunities for students to apply the knowledge, concepts and approaches learned in nursing and allied health courses. Learning to promote health during normative and non-normative life events is a major focus. This includes the practice and development of biophysical, interpersonal and technical nursing skills. In addition, field experiences enable students to demonstrate leadership, self-direction and professionalism in their interactions with clients and families as well as in their work with professional colleagues from nursing and other disciplines.

- A nominal fee of \$38.65 is charged to all nursing students who register in courses where clinical skills are taught to students in the Nursing Learning Laboratory. The fee is for clinical skills kits that students will use during their training in the Nursing Learning Laboratory. The kits also contain additional materials for students to take with them after the training to allow them to practice the skills they learn on their own.
- A nominal fee of \$45.29 is charged to all nursing students who register in courses where clinical skills are taught to students in the Nursing Learning Laboratory. The fee is for clinical skills kits that students will use during their training in the Nursing Learning Laboratory. The kits also contain additional materials for students to take with them after the training to allow them to practice the skills they learn on their own
- Corequisite(s): NUR2 510, NUR2 517, IPEA 500.
- Restriction(s): Not open to students who have taken NUR2 513 prior to 201909.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
