Description

This course provides students with the opportunity to focus on a specialty clinical area of their choice. This specialty could include any age group in acute care, specialty care setting or community/public health setting. This will allow an opportunity to care for a specific population of patients with unique health challenges related to their illness and the resulting impact on their family and support networks and resources, complex, unpredictable, and/or intense health needs; expansion or acquisition of new knowledge and skills and role autonomy extending beyond traditional scopes of nursing practice.

- Prerequisite(s): NUR2 609, NUR2 610, NUR2 616
- Restriction(s): Only open to students in the MSc(A) Nursing - Direct Entry Nursing concentration. Not open to students who have taken NUR2 625.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
