

NUR3 643. REASONING IN ADULT CARE 1.

Credits: 3

Offered by: Ingram School of Nursing (Graduate Studies)

This course is not offered this catalogue year.

Description

Examination of the legal aspects of advanced nursing practice, evidence-based nursing practice and basic concepts in medical and medication management. The focus will be on common illnesses and diseases of the adult through the development of case studies using a case/inquiry-based approach to learning. Principles of medication actions and interactions, the role of the liver and kidneys will be explored, as well as medication management as applied to case studies.

- Corequisite: NUR3 644
- Restrictions: Not open to students who have taken NUR2 677.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
