

NUR3 691. REASONING IN MENTAL HEALTH 2.

Credits: 6

Offered by: Ingram School of Nursing (Graduate Studies)

This course is not offered this catalogue year.

Description

Advanced nursing knowledge and skills, within the scope of practice of a mental-health nurse practitioner, in the assessment and management of depressive, anxiety, obsessive-compulsive and bipolar disorders. Recognition of the pathology associated with these conditions and development of longitudinal management plans that encompass biopsychosocial understanding of the conditions and address urgent and emergency situations are explored.

- Prerequisites: NUR3 690
- Restrictions: Not open to students who have taken NUR2 691.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
