

# NUR3 692. REASONING IN MENTAL HEALTH 3.

---

Credits: 6

Offered by: Ingram School of Nursing (Graduate Studies)

This course is not offered this catalogue year.

## Description

Advanced nursing knowledge and skills, within the scope of practice of a mental-health nurse practitioner, in the assessment and management of psychotic disorders, trauma- and stressor-related disorders, feeding and eating disorders, obesity and metabolic syndrome, and personality disorders. Recognition of the pathology associated with these conditions and development of longitudinal management plans that encompass biopsychosocial understanding of the conditions and address urgent and emergency situations will be explored.

- Prerequisites: NUR3 690
- Restrictions: Not open to students who have taken NUR2 692.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
