Description

During the obstetrics and gynecology course, students will participate in a variety of experiences to learn the knowledge, skills and attitudes relevant to health care for women. The major goals of the clerkship are to introduce students to the broad range of skills and knowledge encompassed in the specialty of obstetrics and gynecology; to demonstrate the interrelationship of specialty and primary care in the care of women across the life span; to provide students with the ability to address common inpatient and outpatient health problems of women; and to demonstrate the obstetrician-gynecologists' interactions with other providers of medical care to achieve optimal benefit in the care of women.

- Restriction(s): Open only to students enrolled in the M.D., C.M. program.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
