ONCO 625. QUALITY IMPROVEMENT PRINCIPLES AND METHODS.

Credits: 3

Offered by: Gerald Bronfman Dept Oncology (Graduate Studies)

This course is not offered this catalogue year.

Description

Principles and methodology of quality improvement in the delivery of health services with a focus on clinical care in oncology. Topics include developing and conducting quality improvement initiatives, data collection, data analysis and implementation of change in clinical practice.

- Restrictions: Open to those in health services research or practice who are involved with healthcare administration and management, however, priority will be given to those enrolled in the Graduate Diploma in Oncology program.
- English is the language of instruction but students may present in either of the official languages.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.

Launch Visual Schedule Builder (https://vsb.mcgill.ca/vsb/criteria.jsp)
