

PHGY 516. PHYSIOLOGY OF BLOOD

Credits: 3

Offered by: Physiology (Faculty of Science)

This course is not offered this catalogue year.

Description

Bone marrow hematopoiesis, with emphasis on regulation of stem cell proliferation and differentiation along hematopoietic pathways. Formation and differentiation of red and white blood cells and some of the diseases associated with hematopoiesis will be covered. Emphasis will be given to the molecular mechanisms involved in the normal and pathological conditions.

- Winter
- 2 hours lecture plus 1 hour seminar weekly

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
