

PHIL 203. INTRODUCTION TO ARTIFICIAL INTELLIGENCE ETHICS.

Credits: 3

Offered by: Philosophy (Faculty of Arts)

This course is not offered this catalogue year.

Description

An introduction to several important debates in the ethics of artificial intelligence (AI), including: artificial general intelligence, artificial consciousness, existential risk, and the moral status of advanced AI systems, to practical ethical and political issues raised by the uses of AI systems, including opacity, discrimination, privacy, disinformation and impacts on work and wealth distribution.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
