

PHTH 450. INTRODUCTION TO PT CLINICAL PRACTICE.

Credits: 3

Offered by: Phys and Occ Therapy (School of Phys & Occ Therapy)

This course is not offered this catalogue year.

Description

In this course, students will be introduced to clinical skills applicable to various physiotherapy domains of practice. Through clinical skills laboratories, self-directed learning, and interactive learning sessions, students will be developing observation skills, as well as analyzing normal and common deviant movements. They will also be introduced to the development of hypotheses to explain movement impairment. Throughout the course, emphasis will be put on palpation and patient handling skills.

- Prerequisite(s): PHTH 245 and POTH 250
- Restriction(s): Open only to PT students - School of Physical & Occupational Therapy

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
