

PHYS 643. ASTROPHYSICAL FLUIDS.

Credits: 3

Offered by: Physics (Graduate Studies)

This course is not offered this catalogue year.

Description

Physics of astrophysical fluids; how it determines the behaviour, formation, evolution, dissipation and death of astrophysical systems, including objects in hydrostatic balance, such as stars, or with inflows and outflows, such as disks and jets.

- Restriction: Enrolment in M.Sc./Ph.D. program, or permission of the instructor.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
