

PLNT 307. AGROECOLOGY OF VEGETABLES AND FRUITS.

Credits: 3

Offered by: Plant Science (Faculty of Agric Environ Sci)

Terms offered: Fall 2025

[View offerings for Fall 2025 in Visual Schedule Builder.](#)

Description

Application of ecological concepts and principles to the design and management of selected vegetable and fruit agroecosystems. Includes selection of varieties and management from seedling to harvest to storage.

- Restriction: Not open to students who have taken PLNT 321.
- Prerequisite: AEBI 210 or PLNT 200 or permission of the instructor

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
